- I-295 northbound off-ramp to westbound South Capitol Street / Nationals Park / Downtown (Exit 3B)
- I-295 northbound on-ramp from Firth Sterling Avenue, SE
- I-295 southbound off-ramp to South Capitol Street / Suitland Parkway (Exit 4)
- I-295 southbound on-ramp from eastbound Suitland Parkway, SE. *Ramp permanently closed as of 7/30/20.*

These closures are required for construction activities associated with the following DDOT projects:

South Capitol Street Corridor Project - Frederick Douglass Memorial Bridge

The South Capitol Street Corridor Project calls for replacing the Frederick Douglass Memorial Bridge and transforming related sections of the urban freeway into a beautiful scenic boulevard that increases pedestrian and vehicular safety, improves multimodal transportation options, increases community accessibility and supports economic development on both sides of the Anacostia River.

I-295 / Malcolm X Avenue SE Interchange Improvement Project

The multiple phases of this project include the reconstruction of the I-295 interchange with Malcolm X Avenue SE, including modified ramps and a new access roadway to the St. Elizabeth's West Campus. The planned improvements will be made between Firth Sterling Avenue SE, on the north, and the South Capitol Street/Martin Luther King, Jr. Avenue SE intersection to the south. The project will provide transportation improvements to serve the proposed Department of Homeland Security headquarters consolidation on the St. Elizabeth's West Campus.

Rehabilitation of East Capitol Street Bridge over Anacostia River Project

The Rehabilitation of the East Capitol Street Bridge (also known as the Whitney Young Jr. Memorial Bridge) over the Anacostia River includes improvements to the substructure and superstructure of the bridge as well as pedestrian improvements, including the construction of a trail connection to provide direct access from the bridge to the Anacostia Riverwalk Trail. The bridge was originally constructed in 1955, and repairs are needed to the bridge deck, concrete abutments and steel girder system.

Motorists are urged to use caution as they travel in these areas, to anticipate moderate delays, and to be mindful of construction personnel.
